UNHOLY TRICKS by Terence Reese and David Bird is a further collection of bridge tales involving the eccentric monks of St Titus. In addition to their usual rubber bridge games - and they play for surprisingly high stakes at the monastery - the monks become involved in duplicate matches against nuns, visiting Italians and even the local police. 'Once again the collaboration of Reese and Bird has produced an amusing narrative with many excellent and instructive hands.' SUNDAY TELEGRAPH 'We can't remember when we have chuckled so much over a bridge book.' THE BRIDGE WORLD
