Using classic illustrations by Peter Bachin, this chart shows the vascular system on the body. It illustrates the heart (right anterior, left anterior, and posterior views), the heart in systole, the female pelvis, the base of the brain, and the branches of the abdominal aorta and portal vein. Three dimensions let you feel texture and form. Three-dimensional images, bold titles, and clear, easy-to-read labels make it easy and fun to learn about the body. The durable, lightweight, nontoxic, recyclable plastic will last indefinitely. The chart has a hole at the top for easy wall hanging, and will also

stand up on an easel.
