Kiki's Hats is the lively story of a spunky and lovable woman who knits hats and gives them away.

Oh, but it is also a story about you and me. Kids and adults. And how much FUN it can be to do something good for someone else.

It doesn't have to be complicated or difficult. It can be as simple as knitting a hat. Or raking your neighbor's leaves. Or visiting someone who is sick.

It could also be building a house for someone who needs it. Or raising a pile of money and giving it away.

We each have the power to create something good that can last a lifetime -- and beyond.

That's the miracle of Kiki's Hats.
