This chart is an excellent tool to help physicians, nurse practitioners, and nurses explain common gynecological diseases to patients. Organized by main presenting symptom, such as abnormal vaginal bleeding, abnormal vaginal discharge, and regional pain, the chart covers the most common gynecological disorders. Each topic has a simple, brief textual explanation and an image. The chart defines normal and abnormal menstrual cycles and illustrates female reproductive anatomy. Grouped by main symptom, the disorders covered include: Fibroids Polyps Cervical lesions

Endometrial hyperplasia Von Willebrand's Disease Polycystic Ovary Syndrome (PCOS)  
Vaginal and uterine atrophy Eating disorders and extreme exercise Medications  
Hormonal imbalances Asherman's syndrome Prolactinoma Ovarian cysts Pelvic  
Inflammatory Disease (PID) and pelvic adhesions Endometriosis Adenomyosis  
Candidiasis (yeast infection) Bacterial vaginitis Trichomoniasis vaginitis Chlamydia and  
gonorrhea
