Get out the pencils and enter the labyrinth...if you dare! Here comes the ultimate maze book, featuring wonderfully diverse examples for every taste. Because these path-finding puzzles have unique rules to follow - for example, you're not only allowed, you're actually encouraged to retrace your route - they'll keep even experienced solvers deliciously discombobulated for hours! Plus, they're in full colour and as beautiful as they are complex. These mandala-like works of art can be appreciated on several levels, so this is one volume that would look terrific on the coffee table...when you're not busy solving, of course!
