After winning a major case in LA, high-powered Philadelphia lawyer Dana Svensson is returning home, eager for a long-overdue family vacation. Barely off the interstate, her client Vic Sullivan, President of Pensteel, calls her from his company's helicopter to rehash the highlights of the trial. Suddenly, their conversation breaks up and, in the distance, Dana sees a mid-air explosion. Dana Svensson has suddenly become the "woman who knows too much." Plunged into a series of breath-stopping events that put her entire family in danger, Dana must use all her skill to find out what's going on before it's too late. Delivering deft plot twists and an in-depth knowledge of legal chicaneries, Angle of Impact is a legal thriller that is more than a little different from all the rest.
