"Math Connects: Concepts, Skills, and Problem Solving" was written by the authorship team with the end results in mind. They looked at the content needed to be successful in Geometry and Algebra and backmapped the development of mathematical content,

concepts, and procedures to PreK to ensure a solid foundation and seamless transition from grade level to grade level. The series is organized around the new NCTM Focal Points and is designed to meet most state standards. "Math Connects" focuses on three key areas of vocabulary to build mathematical literacy, intervention options aligned to Rtl, and a comprehensive assessment system of diagnostic, formative, and summative assessments.
