This fun, interactive book teaches children that God made each one of them in a unique and special way. The kids in One Special Me are all very different. And that's just fine with them. Some love their pale skin and freckles, while others wouldn't trade their wild hair for a lifetime of free pizza. And all for a very good reason-they know God has made them each special, He loves them all the same, and each and every one of them is precious in His sight. In this entertaining book, which features fun flaps, pull tabs, wheels, touch-and-feel elements, and a surprise at the end, your child can learn an important self-esteem and faith-building message, too.
