著者:Ronald Strahan

出版者:CSIRO Publishing

出版时间:2007-10-4

装帧:Hardcover

isbn:9780643091672

Dictionary of Australian and New Guinean Mammals is the first unified guide to the mammals of both Australia and New Guinea. Based on Ronald Strahan's first dictionary of Australian mammals, published in 1981, it includes all species, both native and introduced. For each species and genus, it provides a clear guide to pronunciation, the derivation and significance of the component parts of the name, and the citation that identifies its earliest valid description. This unique work includes biographical notes on fifty-one zoologists who, over the past three centuries, have named Australian and New Guinean mammals. The book also includes an account of the principles and practices of zoological nomenclature, together with a comprehensive bibliography and an index of common names. Dictionary of Australian and New Guinean Mammals is an invaluable reference for mammal researchers and students, as well as anyone interested in natural history.
