Introducing Chinese Religions is the ideal starting point for students exploring the fascinating religious traditions of China. This introduction covers the whole spectrum of Chinese religious history, from the multi-faceted religious heritage of pre-modern China, to the practice of different religions in China today, as well as the spread and influence of Chinese religions throughout the world.

Mario Poceski, an experienced teacher of Chinese religions, explores the three main

traditions of Buddhism, Confucianism and Daoism, as well as the development of Western and popular religions in the region, such as Christianity and Islam. The book introduces students to the richness and diversity of Chinese religious life, pointing out mutual influences and intersections of the religions of the region, and how they interact with other elements of Chinese culture and society, including politics, literature and art.
