Chester Watlins is not an ordinary person. He's a student of the old school with the tenacity of a bulldog. This cagey senior citizen finds himself plunged into an underground world where only the strong survive. Ravaged to death by a rogue

vampire, this determined grandpa sets out on a quest to apprehend his killer, and turn an immortal organization upside down. Unable to regenerate any teeth and looked upon with contempt by his enemies, his opposition makes the foolish mistake of underestimating his most powerful ability of all...His incredible mind. A UNIQUE STORY... WITH A DIFFERENT TWIST
