Many kids claim to have seen ghosts in all sorts of placesa "cemeteries, bedrooms, attics, schools, roadways, forests, caves. Often, experts were called in to investigate these apparent hauntings, and most of the time these so-called experts walked away baffled. The only thing that everyone could agree on was that something very weird had happened, something that could never be fully explained. This first book in Allan Zulloa (TM)s popular Haunted Kids series is a collection of 11 creepy tales inspired by real-life cases taken from the files of noted ghost hunters. Do ghosts really exist? Well, youa (TM)ll have to decide that for yourself after listening to: Disc 1The Devila (TM)s Garden Grave ConsequencesThe Headless TrainmanThe Secret of Room 333The Home WreckerDisc 2The Ghost of Slow SamThe Baby-Sitting GhostThe Scaredy CatsThe Thing in the AtticThe WarningThe Glowing Ball of Death So, Turn Out the Lights, Turn up the Volume, and Turn Loose the Terror
