Did anyone teach you to balance your checkbook? Do you know what identity theft is and ways to keep safe? Do you know your credit score? If your answer to any or all of those questions is "No" then this slim volume of easy-to-understand explanations and information is for you. Sure, there are bigger, heavier books crammed with information, facts, and tips. But you haven't read them, have you? You still need to know the information. Maybe you've already gotten into some bad money habits and don't know how to fix them. It sucks to have to keep receipts and balance checkbooks and make budgets, but when you do, you'll gain mastery over your financial situation and will learn this simple rule: Planning = Power = Savings = Financial Health.
