This title examines the never-ending evolution and creationism controversy. The

evolution versus creationism conflict is here to stay. In this revision of "Evolution vs. Creationism", Eugenie Scott, one of the leading proponents of teaching evolution in schools, describes these ever-changing efforts to undermine science education and shows what students, parents, and teachers should be aware of to help ensure that science education prepares our students to compete in the 21st century. This second edition of "Evolution vs. Creationism" will help readers better understand the issues involved in these debates. It expands and updates the original work with: This title offers an insider's look at the Kitzmiller v. Dover trial conducted in the United States of America. A new selection of primary source documents on 'The Creationism/Evolution Controversy in the Media'. It provides up-to-date analysis of the most recent creationist challenges across the country. The revision also expands and updates the collection of primary source documents that address cosmology, law, education, popular culture, and religious issues from all sides of the debate, as well as the resources for further information.
