出版者:SAGE Publications Inc

出版时间:2008-8

装帧:

isbn:9781412965217

We offer these texts bundled together at a discount for your students. This text and reader bundle provides a broad introduction to the field of forensic psychology. While

students most often associate forensic psychology with criminal profiling, crime scene investigations, and serial murder, this text covers the many others areas where psychology has played a significant role in providing research knowledge to the civil and criminal justice systems. The book is a readable summary of contemporary research and practice across a broad spectrum of topics. Practical applications are discussed where pertinent, and case law discussions are found throughout the text. The companion reader provides cutting-edge research in police and correctional psychology, the psychology of crime and victimization, and psychology as applied to criminal and civil courts.
