Building on the largest national survey of teenage religion ever conducted, Pathways of Hope and Faith Among Hispanic Teens invites you to learn from leading Catholic and Protestant experts as they recount in unprecedented detail the experiences of God, faith, community, youth ministry, and family among the fastest-growing segment of young people in the country- Latinos. This book is a must-read for pastors, youth ministers, teachers, parents, sociologists, and anyone else who cares about the wellbeing and faith development of Latino/a adolescents. Listen as young Hispanics describe their faith and hopes in their own words; gain understanding of the major issues affecting their religious development and life prospects; and improve your ministry or family life with insightful pastoral recommendations.
