Get Up to Speed on the New Features in Lightroom 2! Join Matt as he explores the new additions in version 2. If you've used Lightroom before but want a quick way to learn all of the new tools in version 2, then this DVD-ROM is what you've been looking for. Matt's video cuts straight to the chase and shows you all the new features, demonstrating how photographers can put them to work in the real world. In this DVD, Matt covers: * How Lightroom's killer Print module just got a lot better. * Organizing your photos using the brand new Smart Collections. * How the new Adjustment Brush will change the way you edit your photos. * All of the interface changes and where to find the tools you're used to using. * The new filters and finishing touches you can apply to your

photos from the Develop module. * Plus, a ton of shortcuts and tips to help take your productivity to the next level.DVD-ROM. Running time: 82 minutes.
