The next in the bestselling series for all crafters and designers - 4000 stunning motifs of initials and whole alphabets - provided in book form and also on the accompanying CD. Like all of his previous motif books, the author provides alphabets and initials in a range of historic fonts and scripts. He also presents Roman alphabets that show the influence of other cultures, such as Cyrillic (Russian/Slavonic) scripts and Rune letters. But unique alphabets and elaborate initials - created by the author himself - are also featured to make up a great sourcebook for all those working in the creative field. Author Graham McCallum's fine draughtsmanship makes this large resource of motifs an essential addition to the library of every designer and crafter, whether they are a

needleworker, quilter, glass painter or woodworker. All the images are free to be copied for further creative work.
