A prequel to *The Stone Prince* and *The Painter Knight*, *The Granite Shield* is an equally rich action- and conflict-packed novel, replete with battles, politics, religious and Court intrigues, and focusing around a family gifted with the magic of the Flame, a power which can give its wielder the world or consume him.

Praise for Fiona Patton:

"A strong debut...an epic tale of intrigue and battles, of betrayals and romances, of misunderstandings and magic." -- *Lambda Book Report*, for *The Stone Prince*

"A rousing adventure, full of color and spectacular magics, and just a hint of romance in this intriguing world where men and women both fight and rule." -- *Locus*, for *The Painter Knight*
