isbn:9780073357072

"Introductory Algebra" offers a refreshing approach to the traditional content of the course. Presented in worktext format, "Introductory Algebra" focuses on solving equations and inequalities, graphing, polynomials, factoring, rational expressions, and radicals. Other topics include quadratic equations and an introduction to functions and complex numbers. The text reflects the compassion and insight of its experienced author team with features developed to address the specific needs of developmental level students.
