isbn:9780760335031

Taking up from where her best-selling "How to Master Airbrush Techniques" left off, world-famous custom painter JoAnne Bortles guides airbrush painters to a new level with a full range of techniques and their applications. Her straightforward, clearly illustrated directions show how to airbrush everything from backgrounds and murals

to animal subjects and delicate human features on virtually every surface. From choosing photographs and drawing designs to depicting machinery and animals to manipulating light and dark, Bortle's direct, easy-to-follow guide is the perfect resource for airbrush painters eager to expand their skills, and is certain to be received warmly by the airbrush community.
