In the vein of *Crimson Tide*, with action pulled straight from a high seas thriller, this is the exciting story of a mutiny that the U.S. Navy denies to this day. In 1972, the U.S.S. *Kitty Hawk* was headed to her station in the Gulf of Tonkin when many of the five thousand men cooped up for the longest at-sea tour of the unpopular war rioted - or, as Freeman claims, mutinied. Most disturbingly, the lines were drawn racially, black against white. By the time order was restored, careers were forever ruined, but the incident became a turning point for race relations in the Navy. Through careful and unprecedented examination of the official record and eyewitness accounts, Freeman refutes the official story of the incident, and makes a convincing case for the first mutiny in U.S. Navy history.
