"Quest Second Edition" parallels and accelerates the process native-speaking students go through when they prepare for success in a variety of academic subjects. "Quest" helps students get "up to speed" in terms of both academic content and language skills. The four "Reading and Writing" books in the "Quest" series combine high-interest

material from newspapers and magazines with readings from academic textbooks. The "Reading and Writing" strand includes three to four distinct units, each focusing on a different area of university study - anthropology, art, biology, business, ecology, economics, history, literature, psychology, and sociology. Each chapter contains five parts that blend reading and writing skills within the context of a particular academic area of study. Introduction General Interest Reading Academic Reading The Mechanics of Writing Academic Writing Reading and activites build upon one another and increase in length and difficulty as students work through the five sections of each chapter across the four levels. This is the low intermediate to intermediate level student book.
