This book provides fresh perspectives on the state of policy practice. Leading scholars explore such vital conceptual topics such as how to impact social justice, what the strengths-based perspective means to policy practitioners and how to bridge the all-too common gap between community organizing and direct practice in social work. Other esteemed academics address topics including how to use technology to impact social justice, what the impacts of the recent changes in the United States' Supreme Court will be, how to conceptualize the impact of ex-prisoners' re-entry into society and how to better include marginalized populations in the policy practice. The volume closes with two pieces relating to students: using service learning to increase knowledge of macro interventions and integrating social capital analysis into policy practice. Each topic is thoroughly covered by experts, using the latest scholarly material available. The reader will come away with a new perspective on the many areas where social work is involved, needed and effective in making positive change in the world. This book was published as a special issue of the "Journal of Policy

Practice".
