Swiss artist and film designer H. R. Giger's talent for merging alien elegance with erotic mystery has made him the most popular fantasy/sci-fi artist in the world. The latest edition of this popular calendar presents 12 gorgeous, large-format images of Giger's most recent paintings and sculptures, along with several previously unseen works and examples of his most popular creations. The calendar grids are color-matched to each month's painting and set against a deep black background, imparting an air of mystery and elegance to this remarkable collection of fantasy art.
