As part of the New Perspectives Series, New Perspectives on Microsoft Office Accounting 2009 includes everything students need to learn about MS Office

Accounting 2009. Now deeply integrated, this software lets users work seamlessly between multiple Office applications, eliminating the need to retype data and reducing the risk of error. This text follows the signature New Perspectives approach to engaging students through case-based, problem-solving learning. A perfect complement to a full semester Accounting or Business course, New Perspectives on Microsoft Office Accounting helps students retain concepts and skills with features such as Case Problems, which reinforce information with critical-thinking activities and hands-on tasks.
