How much do you know about your favorite feline friend? Cats are fascinating, complex creatures. Since cats were first tamed more than 100,000 years ago, they have enchanted people with their elegant beauty and mysterious manner. But cats can also be playful and affectionate pets, death-defying acrobats, or ruthless hunters. Award-winning science writer Seymour Simon has teamed up with the Smithsonian Institution to bring you an updated edition of his classic full-color photo-graphic introduction to these beloved animals.
