This edition walks you through the entire bar preparation process from getting a "head start" during your last year of law school to taking the exam. It provides guidelines for selecting a bar review course, bar planner checklists, advice on how to manage the material you cover in bar review courses, and how to learn the law so you can remember it and use it to answer exam questions. It identifies the basic skills the exam tests and the precise manner in which these skills are tested, showing you how to target your study efforts to maximize results. Each component of the bar exam is examined through examples and detailed analysis of sample answers.
