isbn:9781416057260

The Year Book of Anesthesiology and Pain Management brings you abstracts of the articles that reported the year's breakthrough developments in anesthesiology, carefully selected from more than 500 journals worldwide. Expert commentaries evaluate the clinical importance of each article and discuss its application to your practice. Topics in 2004 included: pregnancy and transient neurologic symptoms; informed consent for labor epidurals; analgesic effects of alphadolone; abdominal

pain and chronic pancreatitis; analgesia for back and knee injuries. The Year Book of Anesthesiology and Pain Management is published annually in November.
