Learning to get dressed is a part of every toddler's early education. This delightful interactive book transforms a rainy day into a fun day. The story as a little boy begins by putting on his trousers and buckling his belt. Next, he puts on his sweater and buttons it up. But he can't go outside until he puts on his raincoat, zips it up, then puts on his rain hat and ties it beneath his chin. Finally, with umbrella and boots, he's ready to go out and splash cheerfully in the puddles. Children who open this book will find related activities attached to the illustrations--a Velcro belt to fasten, a zipper that zips up, buttons to fasten, and a hat with straps to tie. Boys and girls will have fun as they develop manual dexterity and gain a sense of achievement. Color illustrations with interactive features appear on every two-page spread.
