"Guns Illustrated" is for the arms enthusiast seeking concise information of new and currently manufactured firearms. Heavily illustrated with approximately 1500 photos, this book is perfect for the reader whose interest is focused on the hardware currently

available from the firearms industry. The easy-to-use "Gundex Arms-Trade" directory quickly pinpoints the catalogue location of any listed firearm. This book also carries the NRA's most current information on firearms laws and concealed carry, a catalogue of semi-custom arms, as well as a fully updated directory of manufacturers.
