Collezioni Directions is an ideal source assisting creative teams to produce new garments that capture the essential looks of the latest Paris and Milan trends. The book contains a wide selection of original new designs inspired by the dominant themes emerging from the latest runway shows, as documented in the current

Collezioni Donna/Milano and Collezioni Donna/Paris issues, with a publishing date approximately 2-3 months after them. Ten to fifteen main themes are featured reflecting the number of important design trends emerging. Each theme includes new designs and variations for the most prominent types of garments and details appearing in the designer collections. The designs are presented in the form of precision fashion drawings - concept drawings and technical flats - containing a large quantity of technical details as well as diagrams clarifying construction and details. The new designs in Collezioni Directions are not copies. Each is an original design inspired by the dominant themes of the current fashion shows.
