The five girls from Book One are back, and this time there are boys involved. The competition heats up, and so do the crushes. On top of that secrets are revealed, including the fact that one of the competitors has already been kicked out of three different schools. If she can't make it this time, there won't be another chance, but will

her efforts to save the world get in the way? Or can this free-spirit settle down and do what needs to be done? Includes exclusive content from America's Next Top Model: an insider's view of a fashion shoot, tips for keeping cool when the pressure is on, how to deal with not getting the assignment, and much more all from former contestants and winners on the show!
