This seventh edition of Todd & Watt's Cases and Materials on Equity and Trusts has been thoughtfully restructured to closely match the needs of the undergraduate student. Gary Watt combines rigorous scholarship with a student-focused approach in his choice of materials and his associated commentary. Where appropriate, legal materials are accompanied by non-legal literary texts with a view to making legal points more interesting and memorable. The book uses key features as tools to assist students' learning and revision, including questions, suggestions for further reading and notes. Online Resource Centre An accompanying Online Resource Centre offers a wealth of valuable resources: - Regular case and legislation updates ensure that students will be able to keep up with the latest important developments in trusts and equity - A selection of web links facilitate further research in areas of particular interest - Question and answer guidance allow students to self-test and reinforce their learning and revision work
