Love on the Edge, Book 2. Running for her life-to a man who'd given up on it. Go to Callahan. Pregnant, alone-and with no memory of who she is-these words are the only thing Hope can hang onto as she drives through a blizzard, searching for the reclusive Callahan. And when she finds him, she's not sure which of them is more in need of help and healing. Haunted by the brutal murder of the woman he loved, the last thing John Callahan needs on his hands is an injured pregnant woman. But with the storm bearing down, he has no choice. Opening his home to her, though, turns out to be far from simple. Her unconditional acceptance of him, scars and all, opens windows to his soul he thought were forever sealed. Then he discovers Hope's true identity, and realizes his past-and a powerful enemy-has come back to haunt them both. Even as he races against time to save her, John has to wonder: Is Hope his redemption? Or his downfall? Warning: This story contains deep emotion, edge of your seat suspense, political intrigue, violence and a romance that will take your breath away.
