Focusing both on the relationships between dogs and people and on the latest discoveries in animal health and behaviour, the book features 12 of the homeless dog centre Best Friends Animal Society's cases. Each chapter follows one dog - often considered unadoptable by other shelters - from the first days at DogTown, through assessment and treatment, to the whether the dog finds a forever home outside the shelter. Photographs of each dog trace its entire journey at DogTown and chart its progress from beginning to end. DogTown's veterinarians, trainers, and experts who are featured on the show contribute essays on their most meaningful moments in working with animals.
