

Environmental Science

[Environmental Science_ 下载链接1](#)

著者:Eldon Enger

出版者:Glencoe/McGraw-Hill

出版时间:2009-02-20

装帧:Hardcover

isbn:9780078936425

This full-color, introductory environmental science text is known for being concise and conceptual. The approach and reading level cover the basic concepts without

overloading students with too much detail. The authors reinforce the text's central theme of "interrelationships" by providing a historical perspective, information on economic and political realities, discuss the role of different social experiences, and integrate this with the crucial science to describe the natural world and how we affect it.
