This book offers a vision of Michigan in all its glory, past, present - from Native American settlements, to trading outposts, farming riches to vacation splendors, artistic heritage to automotive muscle. Here, images of Michigan past and present appear side by side - state landmarks, architecture, capitol buildings, icons of pop culture - bringing to life the transformations of time and history. Photographs and

postcards, brochures and advertisements, document Michigan's history as it lives in pictures and memory.
