The Seattle Seahawks retired the number 12 in honor of the "Twelfth Man" -those fans who remain loyal no matter what. Written as a series of small essays and lists, Emmy-winning writer/producer (and Twelfth Man) Mark Tye Turner infuses the book with same sort of sly humor he brought to his scripts forTalk Soup and Blind Date. This passionate "fan-oir" covers the team's greatest victories and best players, along with the dreadful defeats and the Hawk Hall of Shame. Plus the team's place in pop culture history.
