Are you a speaker or do you dream of being one? Do you sometimes need to debate, present, or perform in front of people? I bet you do. We are all performers. Whether we are professional stage performers, teachers, coaches, or business professionals presenting our ideas to bosses, colleagues, or employees .. essentially, we all perform. The world is a stage. So what if you suffer from stage fright? What if your voice gets stuck and seems to take on a rebellious life of its own when you're trying to express yourself? "Your Voice Is Your Calling Card" is the ultimate voice and performance coaching package for overcoming nerves and stage fright and becoming a remarkable, inspiring speaker and performer.
