Is there really "a secret" that will unlock our happiness? If we wish for something very hard and express enough gratitude, will it actually become ours? Millions of people think so. But there is an even deeper truth than the "law of attraction" covered in the best-selling "The Secret": there are TWELVE laws of creation. This passionately

persuasive book explains exactly what these twelve laws are, how we can harness them, and how we can use our own powerful system of creation to create miracles of joy and fulfillment every day. Annemarie Postma proves to be a true Socratic philosopher who can provide us with the tools and skills to awaken our precious life force.
