If you like the hilarious adventures of Odelia Grey, then you'll love Sue Ann Jaffarian's spirited new mystery series, "Ghost of Granny Apples". Along with a sprinkling of history, these mysteries feature the amateur sleuth team of modern-day divorced mum Emma Whitecastle and the spirit of her pie-baking great-great-greatgrandmother, Granny Apples. Granny was notorious for her award-winning apple pies - and for murdering her husband in the orchard. The only trouble is, Granny didn't kill her husband. She was framed, then murdered. For more than a hundred years, Granny's spirit has been searching for someone to help her see that justice is served. Together, Emma and Granny Apples solve mysteries of the past - starting with Granny's own unjust murder rap in the final days of the California Gold Rush.
