Even the most devoted Francophile will learn something new from these 400 multiple-choice questions, by arrondissement, ranging from obscure lore to facts about well-known buildings, streets, and statues with fascinating and often humorous histories. A delightful way to explore the city on foot or via armchair.

Here are the author's suggestions about how to use Paris Quiz:

Let's forget for a moment the arduous Paris, the everyday Paris, and look at the capital in a new light. What if Paris were nothing but a giant playing field? What if the roads, the monuments, the statues and the history of the capital were the pretext for a thousand questions? The questions that follow are each provided with three possible answers, one true, the other two far-fetched, deceptive, treacherous at times. But be careful! In exceptional cases, more than one answer may be correct. Will you be able to recognize them?
