If you feel trapped in the same old issues in your personal life or your business and need to find a way out, this book will show you "how you do dat." There is a common thread that runs through all creative techniques that can be used to master any situation. This book will show you how to find and use that common thread. The book also gives examples that demonstrate how to use creative techniques to master your business and personal life: How to use the blog in a collaborative group to solve problems and increase productivity How to use your intuition and imagination to get you where you want to go How to find the right job How to use cycles to time business expansions and contractions How to use cycles to time the stock and commodity markets How to use simplicity to guide you to the best path How to select and function in a collaborative group It doesn't make any difference if you are a business executive, an entrepreneur, a stock and commodity trader, or an individual; the creative techniques will all work the same way. These creative techniques have been used by Albert Einstein and others throughout the ages to find answers to their questions and to create what they want. This book makes these creative techniques available to you. All you have to do is experience them and they will become part of your reality. You will then step into a world of unlimited possibilities.
