# Introduction to C++, Excel MATLAB and Basic Engineering Numerical Methods V 1.1

[Introduction to C++, Excel MATLAB and Basic Engineering Numerical Methods V 1.1_下载链接1_](#)

著者:Stenger, Harvey G./ Smith, Charles R.

出版者:

出版时间:2009-4

装帧:

isbn:9780136120247

For introductory courses in Engineering and Computing, C++ Programming, MATLAB, and Computer Methods for Engineers. This easy-to-use new volume offers a pragmatic approach to computational tools and techniques in electronic format. The authors offer broad coverage in an informal style - ideal coverage for a first-year course in Engineering. Experience a unique integrated electronic learning system that allows for quick and efficient navigation to a multitude of examples, exercises, projects, and over ten hours of audio lectures.
