As a comparative study of the virtue ethics of Aristotle and Confucius, this book explores how they each reflect upon human good and virtue out of their respective cultural assumptions, conceptual frameworks, and philosophical perspectives. It does not simply take one side as a framework to understand the other; rather, it takes them as mirrors for each other and seeks to develop new readings and perspectives of both ethics that would be unattainable if each were studied on its own.

书评

对于孔子方面有一些新的东西, 可大多为了比较而进行无意义的重复。
想了解传统美德的可一看 (特别是麦太尔金那里转过来的)
