This board book and CD package introduces its young audience to the joy of music, rhythm, and dance. With one page of guidelines on how to best share the words and music with babies and four spreads of rhyming text celebrating the joy of music and movement, this is a perfect gift for expectant and new parents.

This board book, for ages 0-2, will match the trim size of Curious Baby Counting. The cd will include the following classical music selections: Mozart's Quartet in F Major, in three movements, and Bach's Quartet in E-flat Major, in two movements. (Total

listening time: 25 minutes)

As with all the Curious Baby Curious George offerings, this title incorporates the following themes: a baby-friendly format, a sophisticated color and pattern-driven design, high quality materials, simple visual content, and of course, everyone's favorite monkey--Curious George!
