Emanuel Swedenborg (1688-1772) was a Swedish scientist, nobleman, and theologian who spent his life investigating the mysteries of the soul. Born in Stockholm to a staunchly Lutheran family, he graduated from the University of Uppsala and then traveled to England, Holland, France, and Germany to study with the leading scientists of the time. Between 1743 and 1745 he began to have visions of heaven, hell, and Jesus Christ, which resulted in a stream of books about the nature of God, the afterlife, and the inner meaning of the Bible. He devoted the last decades of his life to studying Scripture and presenting his own unique theology to the world.
