"Have You Ever Seen an Octopus with a Broom?" compares human and animal tools and reveals surprising facts about how animals clean house, fish for food and even play percussion. Maybe you've never seen an octopus with a broom - but these animals use jets of water like a broom to sweep out leftovers after a meal, and also sweep sand and small stones out of their den to make it bigger. The Spin It activity at the end of the book will provide hours of educational enjoyment. Each informational picture book in the Have You Ever Seen series uses lighthearted human-animal comparisons to teach primary-level children about animals.
