出版时间:2009-11-7

装帧:Paperback

isbn:9781440204364

The essential reference for the beginning shooter, Tactical Pistol Shooting, 2nd edition, provides a thorough introduction to the use of tactical pistols. Readers get instruction in defense mindsets, pistol terms, shooting fundamentals and shooting positions, emphasis on important safety precautions and lawful personal defense. Readers will also find advanced techniques, training drills and complicated shooting environments. More than 350 detailed, step-by-step, color photos clearly illustrate the techniques shooters will master to become more adept with a tactical pistol. Appendices include a discussion of shooting standards, equipment supplies listings, progress worksheets and more.
